

The definitive presentation of a great man's legacy.

THE COLLECTED WORKS MILTON H. ERICKSON

The first four volumes of this ongoing series, *The Collected Works of Milton H. Erickson*, begins the process of making his sizable and significant literature accessible to students, researchers, clinicians and educators in the behavioral sciences, and related life sciences of medicine and neuroscience. Some of this material has not appeared in print for over 40 years!

Each volume is a deluxe, limited edition of **only 500 copies** — a collection that will become a treasured addition to any library.

Also, each volume features new introductory material by the editors.

Four volumes will be published each year until 2010 — a total of 16 volumes in this initial installment of the series — with additional volumes made available thereafter as materials from the Erickson Foundation Archives are assembled and edited into thematic collections.

Each volume is a deluxe, limited edition!

Edited by Ernest L. Rossi, Ph.D.,
Roxanna Erickson-Klein, Ph.D. & Kathryn Lane Rossi, Ph.D.
